***The Banks do not release full information on the properties.***

***Until the day of viewing, so buying a Repossession, from a Bank requires physical participation rather than arm-chair shopping.***

We have little information from the Bank, normally the Urbanisation address, Size, Number of rooms and price along with some very poor quality photos taken by the Bank.

We encourage clients to research the area of the property and urbanisation via the internet. Contact Real Estate Agents who have private listings for sale in the same urbanisation. That way Community fees, I.B.I and amenities can be researched before you come to view.

**YOU MUST VIEW A BANK REPOSSESSION TO MAKE AN OFFER!**
